

Colour Concrete

General: This new porcelain stoneware proposal result is achieved by hammering the surface texture prior to 2nd pressing, then honing the surface once fired. The effect achieved is that of traditional stone streets of Europe, combined with new and timeless colour variations. Color Concrete is a new look in natural stone appearances, without the sealing & maintenance requirements.

Applications: Commercial & residential in and out doors, including foyers, boutiques, galleries, kitchens, bathrooms, living areas, balconies, patios and pool surrounds (with lamination and various edge detail finishes being achieved)

Origin:	Italy		
Colours:	Honey*	(limestone cream)	
	Sky	(concrete grey)	
	Charcoal	(charcoal/slate)	
	Luminar	(cool tobacco)	
* Discontinued - stock available 600 x 600mm size only			
Sizes:	600 x 600mm	300 x 600mm	300 x 300mm
Thickness:	11mm		
Finishes:	Natural surface (in & outdoors)		
Type:	Fully vitrified porcelain stoneware		
Appearance:	Bush hammered stone, with shade & surface variation		
Production:	Double-pressed, rectified edges		
Technical:	Water Absorption less than 0.05%		
	Frost Resistant (-35C)		
	Scratch Resistant		
	Chemical Resistant		
	Surface Hardness MOHS 7-8 (of 10)		
	Stain Resistant		
	Breaking Strength 535Kg/cm ²		
	Grade (PEI) 5 – All Residential, All Commercial		
Slip Resistance:	European Standard (DIN 51130) R10
