

Elegance

General: Elegance says it all! This beautiful series of porcelain stoneware is the re-creation of the finest hand selected limestones, that have been carefully honed & polished. This is obtained by the use of soluble coloured salts, which penetrate into the tile body, then machine finishing the surface to create an elegant feel. Elegance looks stunning in both classical and modern interiors.

Applications: Commercial indoors & residential in & out doors, including foyers, boutiques, galleries, living areas, balconies, patios, kitchens, bathrooms, walls and step treads (with lamination and various edge detail finishes being achieved)
