New Release

Tivoli

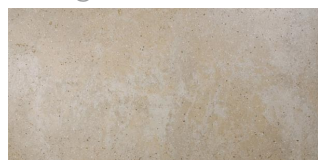

Tivoli is a stunning reproduction of the classic Travertine Stone, produced using an exclusive technology called "Tallado".

This allows for the cutting of the raw material before firing, and produces texture, colour and finish that are only comparable to the most exquisite natural stone.

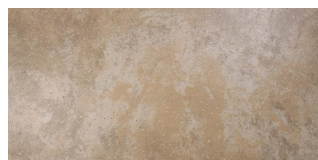

Tivoli comes in two colours, light travertine colour 'Sand' and a latte colour called 'Nocce' with a standard slip rating of R10. Sizes available are 300 x 600, 600 x 600 and 600 x 1200.

Frost, scratch and stain resistant, Tivoli is the perfect alternative to the risks involved with using natural stone. Design and Project integrity will be beautifully maintained throughout time.

Tivoli is ideal for all commercial & residential in and out doors, including foyers, shopping centres, public areas, courtyards, living areas, patios, walls inside & out, building facades, step treads and pool surrounds, (with lamination and various edge detail finishes being achieved)

Tivoli 'Sand'

Tivoli 'Nocce'

To discuss these and other materials featured on the Rocks On website, please contact your Rocks On Representative for further information & assistance.
