

# Pietra Serena

**General:** This rich series of architectural porcelain allows endless contemporary design possibilities, with several finishes and matching mosaics. This high quality material is calibrated and double microsealed, and is ideal for high traffic areas because of its great mechanical resistance. In addition to this full body floor & wall tile comes a new large format ceramic wall tile in a satin finish.

**Applications:** Commercial & residential indoors & outdoors (depending on the finish) including hotels, restaurants, boutiques, kitchens, bathrooms, living areas, floors and walls.

**Origin:** Spain
