

Progetto Casa

General: "Progetto Casa" creates a setting of modern urban taste, where shapes and colours define the trends of today. The contemporary yet timeless tones enable the designer to create different chromatic combinations, and gives the residential or commercial setting a unique personality.

Applications: These smooth surfaces find their right setting in all residential and commercial areas; bathrooms, kitchens, living-rooms, commercial foyers & boutiques for both floor and wall. (laminations and various edge detailing can be achieved for steps and other special pieces)
