

ROCKS ON

HARD SURFACE SOLUTIONS

Product Feature

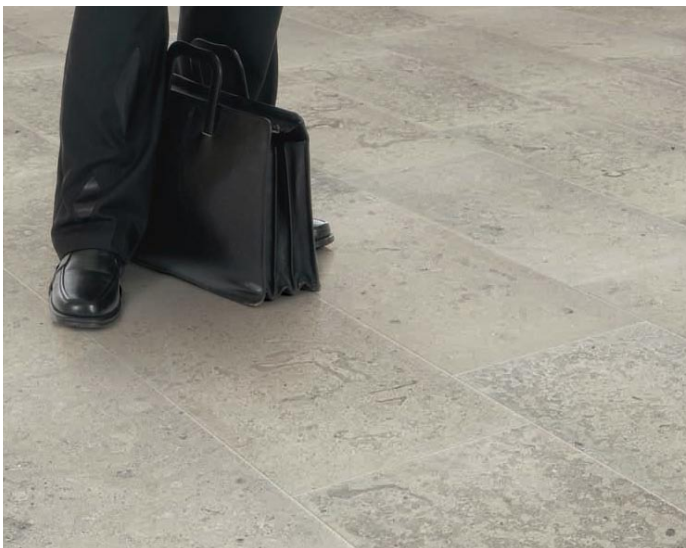

Jorstone

Manufactured with the latest innovative digital ink-jet technology, Jorstone is literally a photographic reproduction of real stone.

Incorporating the many different patterns and shadings of natural limestone, it is perfect for a myriad of installations - from bathroom to living room, boutique to public foyers.

Jorstone has a R10 sliprating and a BPN value of 'W' making this material an ideal choice for your next project.

Available in three beautiful colours and two sizes - 500 x 500mm and large format 412 x 827mm - application ideas include commercial & residential internal and external floors & walls, including foyers, restaurants, bars, boutiques, galleries, living rooms, patios, kitchens & bathrooms.

To discuss these and other materials featured on the Rocks On website, please contact our office for further information & assistance.
