

Nash

General: A porcelain tile that gives the wood effect an original personality with a spontaneous, intense character.

Inspired by the aging process of the original material, the Nash collection of wood-effect porcelain tiles conveys the flavour of wood marked by time and reproduced in a modern key. A perfect combination of natural character, boldness, memory, and contemporary spirit. Nash tells a story with an intense, captivating appeal, like the lives of those who choose it to furnish their own spaces.

Applications: All commercial & residential applications for both floor and wall, inside & out, including 20mm pavers that do not require to be laid on a slab. Create various edge detailing and laminations for steps, pool surrounds/coping, as well as custom designs.
