

KLIF

General: The decisive elegance of stone comes to life in a collection inspired by Beola stone of Vald'Ossola, Italy. When placed in any environment, Klif becomes a striking focus point. Realism is the strong point of the Klif, reproducing the veins and shading typical of Beola stone.

Applications: All commercial and residential applications for both floor and wall. Various edge detailing and laminations can be created with this material for steps, pool surrounds and custom internal and external design details.
